

ECOSOLID

EcoSolid is a terrace slab, which **breaks the pattern of the square**. A simple line and flat surface protected with a special profile, combined with its elongated shape, allows you to pursue **unusual and light arrangements**.

USAGE

External pavements -biologically active -terraces, alleyways and garden paths, pavements, courtyards, passages. With a properly prepared foundation also driveways and car parks loaded with vehicle traffic up to 3.5 t.

USEFUL RECOMMENDATIONS

Installation in accordance with construction practice. Use with a traffic load of up to 3.5 t is subject to the roadbase being constructed in accordance with the manufacturer's guidelines contained in the product documentation. Current removal of impurities necessary, depending upon the type of dirt, wiping with a cloth or rinsing with water. Joint width 3-5 mm.

SPECIAL FEATURES

An oblong slab with a simple and flat line and a flat surface protected with a special profile around the perimeter. Specially enlarged spacers and spacing fitting the Cube, Style and Solid slabs. The pattern consists of one repetitive element.*ATTENTION: For technological reasons pallet's weight may change.

All surfaces should be executed in accordance with the guidelines of GDDKiA (General Directorate for National Roads and Motorways) No. D-05.03.23.
