

ECOLINEA

EcoLinea is a terrace slab, which breaks the pattern of the square. A **simple line** and flat surface protected with a special profile, combined with its **elongated shape**, allows you to pursue unusual and light arrangements. The pattern consists of **one repetitive element**.

USAGE

External pavements -biologically active -terraces, alleyways and garden paths, pavements, courtyards, passages. With a properly prepared foundation also driveways and car parks loaded with vehicle traffic up to 3.5 t.

USEFUL RECOMMENDATIONS

Installation in accordance with the construction practice. Use with a traffic load of up to 3.5 t is subject to the roadbase being constructed in accordance with the manufacturer's guidelines contained in the product documentation. Joint width 3-5 mm.

SPECIAL FEATURES

An oblong slab with a simple and flat line and a flat surface protected with a special profile around the perimeter. Specially enlarged spacers and spacing fitting the Linea and Viva slabs. Their pattern consists of one repetitive element.

All surfaces should be executed in accordance with the guidelines of GDDKiA (General Directorate for National Roads and Motorways) No. D-05.03.23.
