

WENA

Wena is a phase-free paving stone. Simple **cubic shapes**, **5 elements** with regular edge lines and a **flat surface** will turn any surface into a stylish and original one. With Wena it is possible to create **simple and geometric patterns**, which will fit perfectly in the modern designs of houses and gardens. It will prove great **both in an urban environment and in private estates**.

USAGE

Terraces, alleys and garden paths, walkways, patios, passages, driveways and car parks loaded with vehicle traffic up to 3.5 t.

USEFUL RECOMMENDATIONS

Installation in accordance with the construction practice. Do not use on roads used by vehicles of more than 3.5 T. Use with a traffic load of up to 3.5 t is subject to the roadbase being constructed in accordance with the manufacturer's guidelines contained in the product documentation. Joint width 3-5 mm.

SPECIAL FEATURES

Straight edge paving stones with microfiber and flat grain surface. Spacers of classic size. The pattern consists of 5 elements packed together. The stones made with the use of the two-ply technology.

All surfaces should be executed in accordance with the guidelines of GDDKiA (General Directorate for National Roads and Motorways) No. D-05.03.23.
