

MAGNUM

Magnum is a modern terrace slab with enlarged dimensions, which fits into the trend of large-format surface products. This repetitive and rectangular element is perfect for creating terrace surfaces or driveways* in a **modern style**, both **minimal** and with **impressive solutions**.

* driveways, car parks up to 3.5 t – only with a properly prepared foundation (according to guidelines available from the manufacturer).

USAGE

Terraces, alleyways and garden paths, pavements, courtyards, passages, driveways and car parks with vehicle traffic up to 3.5 t.

USEFUL RECOMMENDATIONS

Development according to the best construction practices. Use with a traffic load of up to 3.5 t is subject to the roadbase being constructed in accordance with the manufacturer's guidelines contained in the product documentation. Joint width minimum 5mm. Use of spacers (crosses) required for paving slabs.

SPECIAL FEATURES

Rectangular plate with a flat face with a microphase around the circumference. There are no spacers. The pattern consists of one element. *Note: for technological reasons, the weight of the pallet may change.

All surfaces should be executed in accordance with the guidelines of GDDKiA (General Directorate for National Roads and Motorways) No. D-05.03.23.

DANE TECHNICZNE

Slab thickness (cm)	6,7
Pallet weight (kg)	1250
Number of pieces per pallet	20
Number of layers per pallet	10
